TUESDAY OCTOBER 18 1892,

TELEGRAMS TO STANDARD.

By direct cables via Lisbon.

New Orleans, 16th.—Springfield, the quarter where the cotton deposits of this city are, has been reduced to ashes.

Hamburg, 16th.—In last 24 hours 19 cases and 5 deaths.

Berlin, 16th.—The Finance Minister, Miquel, is seriously ill.

London, 17th—Government has given permission for a meeting of working men in Trofalgar Square on the 13th prox.

The Socialists will take part in it, and petitions to Government in favour of amplifying the Working classes' programme will be voted.

The Rothschilds have issued the prospectus of the Chilian loan.

Hamburg, 17th—Only six cases and one death from cholera here yesterday.

Seville, 17th—The young King, who was suffering from over exertion, is better.

Great fetes are going on here in honour of the Royal Family. At night the illumination of the Guadalquiver and the public buildings has an enchanting effect.

If the King continues to recover, the Regent will leave to-night or to-morrow for Granada, and reach Madrid on the 20th.

London, 17th—The steamer Bokhara, of the P. and O line, has been lost on Fishermen's Island in the Formosa Straits.

The names of the 26 passengers and crew saved are not yet known.

The steamer Knight, bound from Cardiff for South America with coal, has also been lost.

New York, 17th—In consequence of the serious illness of his wife President Harrison cannot attend the inauguration of the Exhibition buildings in Chicago. Vice-President Morton will represent him.

The *Herald* of this city says that Chile is negotiating the cession of Mollendo and Arica to Bolivia.

London, 17th—The Queen will go to Florence next March, to pass the Spring.

Berlin, 17th—Dr. Virchow has been named Rector of the University of this city, and the public applaud the appointment.

Vienna, 17th—Count Taaffe is trying to reconcile the young and old Tchecs, to put an end to their rivalry with the Germans. In proof of his sincerity he will yield the portfolio of Interior to Riderlot, a Tchec.

Lisbon, 17th—There are proofs that the Pope favours the Portuguese Catholic party, and this may give rise to complications.

(Per Havas Agency.)

Madrid, 16th.—The Queen Regent has consented to be godmother to Emperor William's daughter. The Republican papers are angry, but those of the Conservative party consider it a mere act of courtesy.

The little King is slightly unwell.

Lisbon, 16th.—The Brazilian ironclad Barrozo has arrived here.

Athens, 16th.—Diplomatic relations between Roumania and Greece have been broken off.

Paris, 17th.—The Grand Duke Alexis, second brother of the Czar, arrived here yesterday afternoon.

Vienna, 17th—The rupture of relations between Roumania and Greece is due to differences between the two countries about the last will and testament of the Roumanian Lappas, who died in Greece some time ago.

Brussels, 17th (evening)—The Mons coal miners have returned to work, the owners having partly yielded to their demands.

Berlin, 17th—The Prussian Parliament has been summoned to meet on the 9th prox.

(To the "Prensa".)

Madrid, 16th—Queen Christina has consented to be sponsor for the Emperor of Germany's daughter. The *Globe* says this will cause a coolness with France and interfere with the commercial treaty.

Paris, 16th.—A Ministerial crisis is imminent.

The *Debats* says there is another scandal brewing in the Foreign Office.

London, 16th.—The storm continued yesterday. The streams in Yorkshire overflowed and did considerable damage.

Rome, 16th.—Lake Como has overflowed. Great inundations in Sicily also.

New York, 16th.—Ruiz, Consul General of Ecuador, has been arrested for forging the name of Mr. Preston, Vice-Consul, to a money order for 2,000 fs.

Washington, 16th.—The Papal Delegate, Archbishop Sotolli, has been cordially received by Mr. Foster, Secretary of State.

To Dr. Luis Saenz Peña President Argentine Republic.

The Holy Father sends you thanks for your informing him of your election as President; and trusts that Y.E. will protect religion. He sends you with paternal affection the Apostolic Benediction.

LOANS TO PROVINCES.

The Finance Minister has acted wisely in countermanding the loan of 500,000 dollars to the Entre Rios Government by the new National Bank. A few loans of this kind would soon pump dry the institution founded by Pres. Peliegrini for the public welfare, and necessitate a further increase of capital, that is a fresh issue of shinplasters, to provide for the constantly recurring wants of Santa Fé Cordoba, Mendoza and other meritorious provinces. Hence Dr. Romero has done the country a signal service by prohibiting the Bank from operations of this kind. Meantime the public, who heard Pres. Pellegrini declaiming so energetically last year against the evils of state-banking, will feel little or no surprise to learn that this loan to Entre-Rios was arranged under his administration.

The moral to be drawn from the business is this, that State Banks have for their principal object to lend money to impecunious Governors, corporations or "deserving" persons, who are anxious to develop the natural resources of the country, and to whom no ordinary bank would lend sixpence. President Pellegrini was the first to recognize this fact when the State Banks collapsed in 1891, and hence he considered that they were most injurious to the interests of the nation.

It is, therefore, of the highest importance to re-open the subscription for shares of the new National Bank, so as to take it wholly out of the hands of the Government. This would give additional strength to the bank, especially in the matter of deposits, for we cannot expect the bricklayers, carpenters and other tradesmen to have unlimited confidence in an institution that may be called on to make loans to Entre Rios or any other province whenever the finances of such provinces are unequal to the pressing demands of the hour.

That we have turned over a new leaf at the Casa Rosada since the change of President is very apparent from the cancelling of the Entre Rios loan. Had the change of Government not occurred for another half-year everyone of the 14 provinces would perhaps have got a loan out of the new bank. Another matter which shews a complete change of front by the Government is the expenditure on the Madero Docks. The Contaduria asserts that there is no justification for exceeding the sum of £4,000,000 fixed by Congress, whereas Madero & Co. state that the cost cannot be less that £5,920,000 sterling, owing to improvements and addition».

Public opinion cordially supports Minister Romero in the attitude which he has assumed in defence of the public purse.

FINANCES OF PARAGUAY.

The crisis in Paraguay is apparently much more disastrous than in Argentina or Uruguay, and the advices which we received yesterday from Asuncion shew that the Republic is utterly bankrupt. There is nothing for the London bondholders, nothing for the Railway guarantees, and the revenue is insufficient to meet ordinary expenditure. Under these circumstances the best thing for Paraguay to do would be to declare frankly that many years must elapse before the country can pay anything to its creditors.

In the first place the loan of 1886, when the debt was converted, amounts to £850,000 sterling, the interest on which is £25,500 per annum. In the second there is a railway guarantee of £55,000 yearly on the sections already open to traffic, now two years in arrear. In the third the expenditure of 1891 was double the revenue, and the financial position is summed up as follows:—

	Currency		£sterlg.
Army	920,000	=	27,600
Administration	780,000	=	23,400
Interest on debt	850,000	=	25,500
Railway Guarantee	1,840,000	=	55,000
Obligations	4,390,000	=	131,500
Revenue	865,000	=	25,900
Deficit	3,525,000	=	105,600

We may, therefore, put out of the question any payment either to the bondholders or the railway company until a notable improvement take place in the affairs of Paraguay. In a word the revenue must increase 400 per cent before that country can hope to resume the payment of its obligations.

Meantime nobody can feel much sympathy for the people in London who have been mixed up in Paraguayan investments. The loans of 1870-71 were calculated to throw much odium on the London Stock-exchange, since it was shewn that although the loans amounted to £3,000,000 the total sum remitted to Paraguay was only £180,000. When the debt was converted, in 1886, it was mostly held by persons who had bought the £100 bonds at very low prices, from £5 to £7, and these parties received not only 2,200,000 acres in land warrants but also new scrip for £850,000 in 3 per cents. This was more than Paraguay really owed, for we think the bondholders were fully paid by the above cession of public lands.

The railway was taken over by an English Company, who paid the Government £210,000 in ordinary shares for the section to Paraguari, 40 miles in length, the Government giving a 6 per cent guarantee for 30 years, and the Company engaging to complete the line to Encarnacion, 228 miles from Asuncion. It would appear, however, that the Company had not capital to extend the line, and was compelled to raise money by debentures for this purpose. The line has accordingly been prolonged 102 miles from Paraguari to Caazapá, but the Government has failed since Sept. 1890 to pay the guarantee. The Company filed a plea of bankruptcy in the London courts some months ago, the effect of which is to confiscate the ordinary shares (including £210,000 worth held by the Government) and hand over the line to the debenture-holders. If the Government had been able to pay the stipulated guarantee this act of bankruptcy might have been averted, but as matters now stand the shortest plan is for the Government to confess its inability to meet its obligations and to acquiesce in the sentence of the London law-courts.

LATEST FROM RIO.

Rio, Sept. 27.

President Floriano Peixoto has signed the navy bill, in conformity with which the naval force for 1893 will be composed of 4,400 national marines, 300 soldiers of the naval battalion, 300 stokers, and 3,000 naval apprentices.

On the 20th inst. Dr. Rego Barros, city physician, discovered at 114 Rua do General Pedra an establishment that is said to have been doing a thriving business by parching and grinding deteriorated Indian corn and selling it to coffee adulterators.

On the 20th inst. President Floriano Peixoto signed the bill recently voted by Congress for organizing the federal district. By this law the district will be under the control of a prefect appointed by the President of the republic, with the advice and consent of the Senate, and a municipal council elected by the people of the district. The latter will exercise legislative functions and the former executive functions with the faculty of vetoing municipal bills. He will hold office for four years, but the first incumbent will only serve till December 31st, 1894. His salary will be $24,000 per annum. The municipal councillors for the first term will be 27 in number and will be paid $6,000 each per annum and the president $8,000 per annum. The council will hold every year two sessions, neither of which will exceed 60 days. The term of office will be for three years.

At two o'clock a.m. on the 20th the body of a mulatto woman horribly mutilated was discovered in a basket covered with two gunny bags in the basin of the fountain on Largo do Deposito. During the day the body was identified and evidence was given furnishing a clue to the discovery of the perpetrators of the crime. The legs were missing, but a companion of the unfortunate woman identified her by certain marks on the body as one Maria de Macedo. A soldier named Manuel Gomes was concerned in the disposal of the body. On the 22nd a sack containing the head, arms and legs of the corpse was washed ashore on the beach near the trapiche Freitas, and on the same day an ill-favored fellow was arrested on suspicion of being concerned in the crime. The police are prosecuting the investigation, however, with but little success. It is believed that the crime was committed by a soldier, but the man who deposited the corpse in the fountain has not been found. The crime has caused a sensation because of its fiendishness and the singular manner in which it was discovered.

An English yacht called the St. George, belonging to the Royal Yacht Club, entered this port on the 24th.

The officers and crew of the new cruiser Republica are to leave for England next week on the Royal Mail steamer Clyde.

On the 22nd inst. Antonio Mendes Barreto and Antonio Rodrigues de Barros signed the contract with the Municipal council for supplying the city with beef.

The captain of the American steamer Segurance has been fined 200$ for some irregularity with which he is charged in relation to the delivery of the Bahia mails.

Messrs. Norton, Megaw & Co. have offered free transportation to New York on the Lamport and Holt steamers for Brazilian exhibits destined for the Chicago exposition.

The commission charged with the settlement of the Misiones boundary question, which has been referred to the President of the United States as arbitrator, is to leave for New York on the 6th prox.

Complaints are made of the extreme negligence of the quarantine officials in advising the agencies here of the arrival and departure of steamers. In view of the fact that a knowledge of the movement of passenger steamers would be of great service to enable the agencies to inform the friends of expected passengers just where they are, it is not too much to ask that telegrams to this effect be sent from Ilha Grande.—*Rio News.*

LATEST FROM MONTEVIDEO.

Monday Evening.

It is stated that one of the honourable Deputies will interpellate the Minister of War on the subject of the contract placed by the then Minister, Gen. Calloras, for striking off a certain number of medals, and subsequently rescinded. The party who took the contract claims heavy damages.

Mr. Rodero, who managed the bullfights, and the Columbian Festivities Committee are again quarrelling. Something appears to have gone wrong in the cash. The receipts are put down at $2,000, but the Committee maintain that they must have been at least $5,000.

During the festivities Pres. Herrera, who mixed with the crowd, got into a row with a policeman, who sharply reprimanded him and threatened to arrest him. The honest "blue" did not recognise the Chief Magistrate.

The races yesterday at Maroñas were a great success. The Premio Centénario was won by Ecarté. Donninia won the Colon Stakes, Financiera coming in second.

Mr. Sanguinetti and his sisters had a narrow escape of their lives yesterday. The horses of their carriage bolted and the carriage was smashed up. It was a miraculous escape.

The steamers Aquitaine and Strasburg have been put in quarantine, and the Coleridge has been allowed free pratique.

The Health Board have decreed 48 hours' observations on vessels from Santos.

A banquet was given to the Press yesterday on board the fine Platense steamer Eolo.

The Silver Coinage Bill will be promulgated to-morrow.

The Custom House receipts this month are estimated at $800,000.

A large consignment of "caña" has arrived from Havannah, consigned to Peixoto, Morales and Co., who will have to pay $50,000 in duties.

OUR FOREIGN DEBT.

The *Nacion* publishes the following interview with Mr. Torromé, of the firm of Torromé Sons & Co.

Reporter. You who are well acquainted with the London market, are no doubt in a position to say something in regard to the numerous projects which the London papers are now discussing for the arrangement of our foreign debt.

Mr. T. Well, I may say that in London there is the most pronounced goodwill towards our country and I think a satisfactory arrangement may be arrived at. I think that the British bondholders would be satisfied with a two per cent interest during four years, on the expiry of which arrangements could be made for increasing the rate of interest. The Government then could unify the debt at a rate which the country could reasonably support and punctually pay.

Reporter. But what about the foreign debt of the provinces?

Mr. T. I think all the provincial loans should be included in the 2 per cent arrangement I have referred to. Greater advantages would accrue therefrom and a better feeling caused. The National Government might enter into arrangements with the provinces, which possess extensive areas of land. Unification, I repeat, would be very acceptable.

Reporter. And as regards amortization?

Mr. T. I think the amortization should be suspended during ten years.

We should not be the first to adopt a measure of this sort, and the British bondholders would accept it provided the question of interest be arranged as I have already indicated. People abroad know that we are doing our best to meet our engagements. We must pay what we can and metallize in order to give value to our paper. I do not believe in the idea of commissioners coming out. I will say moreover, that I do not think it right that one creditor should be favored more than another. I do not believe in establishing a silver currency here. This crisis has made us known to Englishmen, who have taken the opportunity to study our country and have formed a very favorable opinion of it. They know our immense resources, the fertility of our soil, the prospects of our production, our industry, our trade and commerce. As soon as we place things on a proper basis, British capital will flow in. Our Government must economise. In ten years' time our development will astonish the world.

DEATH OF DR. AYER.

Dr. James M. Ayer, a well-known citizen of Danville, died at his home there yesterday morning from a sudden attack of heart disease. Dr. Ayer was the only son of Dr. Royal Ayer, a physician widely known throughout Caledonia country, and was born in Danville in 1840. After graduating from Dartmouth in 1860 he was elected Captain of Company B., Fifteenth Regiment Vermont Volunteers in September, 1862. He was mustered out after one year of service and immediately entered the New York College of Physicians and Surgeons, from which he graduated in 1865.

After being engaged one year as resident physician in St. Luke's hospital, New York, Dr. Ayer went to Buenos Ayres, South America, where he resided in general practice until 1886. He then returned to his native town, and, until his death, made it his summer home, going to Washington to spend his winters. In the course of his varied career he had accumulated a large property, a part of which he had devoted to the improvement of the fine estate left him in Danville by his father.

Dr. Ayer was held in high esteem by all who knew him, and he will be long and pleasantly remembered. The family have the sympathy of all in their bereavement.

The Portland Argus says of the late Dr. James M. Ayer of Danville: "Marrying the youngest daughter of the late Gov. John W. Dana of Fryeburg, Maine, who was then located in Rosario, B. Ayres, Dr. Ayer and his wife, at the request of her father, went to Buenos Ayres and established themselves there, where he remained in the practice of his profession until a few years ago. Then he returned with his family and again took up his residence in Danville, the place of his birth. But before he left South America too assiduous attention to his professional duties seriously impaired Dr. Ayer's health, and after his return to this country health did not come back to him. Yet he made a brave fight against the encroachments of disease, and even in the moments of intense physical pain no one heard complaints from his lips. Dr. Ayer was a fine scholar and one of the ablest physicians who ever claimed the Green Mountain State for his birthplace. He was a fine looking man, was of a courteous and noble disposition, and numbered many warm friends in this city and other parts of the State who will deeply regret his death. He leaves as his immediate family a widow, a daughter and a son to mourn his untimely taking off.—*Vermont paper.*

THE TRANSMISSION OF CHOLERA.

TO THE EDITOR OF THE "ECHO."

Sir,

The admirable letters which have been written in our papers by so many able physicians and hygienists have rendered it possible for all to understand clearly how cholera is transmitted. We are now convinced that this disease never arises 'de novo' in Europe, but is always imported from the East by travellers. We know that it is very seldom transmitted by the effluvia from the sick, as is the case in small-pox, scarlet fever, or measles; and also very rarely indeed transmitted by clothing. Attendants in cholera hospitals are rarely attacked by the disease, and consequently, the horrors of hospitals in cholera times are not to be compared with those occurring in refuges for the sick in times of plague or typhus fever. The real danger in cholera arises almost entirely from the contamination of the water supplies by the evacuation of persons affected with the disease. That was the cause of the sharp epidemic in 1854 in Broad street, so well described by Dr Snow; and of the great mortality in 1866 in East London, which Mr. Ernest Hart traced to the contamination of the water supply from the River Lea. In Hamburg the supply of water is extremely impure, as also in St. Petersburg; and this accounts for the terrible mortality from cholera in these cities recently. We may be pretty sure that there will be no epidemic of cholera in Glasgow with its supply of pure water from Loch Katrine; in Inverness, which has a similarly pure lake to draw its potable water from; or in Nottingham, which obtains its potable water from deep strata by pumping. In London we, unfortunately, are not so well provided with pure water, for the Thames and the Lea, from which we have two-thirds of our supply are still permitted to receive numerous impurities, flowing into them from villages, single houses, and house-boats. If a patient lightly affected with cholera were to pass through from Hamburg, Havre, or Paris and take up his abode in a house communicating by its drain, either with the Thames or Lea, there can be but little doubt that an epidemic of the disease might arise among customers of the water company supplying that contaminated water. So that, whatever other means are devised for checking the invasion of this formidable contagion, there can be no doubt that by far the most important is that which strives to accomplish the very difficult task of freeing the Upper Thames and the Lea from all sewage impurities. Why should not a society be formed to force all riverside villages on these rivers to filter their sewage through sewage farms? I can see no reason why this should not be carried out, except one, *i.e.*, the extreme supineness of our County Council.

Yours, &c.,
C. R. Drysdale, M. D.

FETE AT ADROGUE.

The new Hotel de Delicias was inaugurated on Sunday with a suitable banquet, after which the guests had occasion to admire the handsome statue to Admiral Brown. The hotel and grounds are models of neatness and comfort, and the stables are not too near the house. The latter is a fine building, three storeys high, lit with electricity and gas: the rooms are elegantly furnished and well ventilated. Besides, the dining-hall, ball-room and billiard-room there are 75 apartments upstairs, many of which are already occupied by fashionable families from Buenos Ayres, who find here every comfort and an excellent "cuisine," with moderate charges. Adrogue has a number of lovely quintas. There are a dozen trains daily which make the journey to town in little more than half-an-hour. If there were one train daily each way, to and from the Central Station, many more people would settle at Adrogue.

RAILWAY ITEMS.

The official Inspector of the Port Works has reported on the application filed by the Catalinas Company who were anxious that the Government should include amongst the works decreed to be finished the building of lines on the east side of Dock No. 3 to facilitate the loading of produce. In his report the Inspector advises the Government to build two provisional lines on the east side of Dock No. 3 forming a junction with the other lines in the south and doubling towards the north so as to pass over the swinging-bridge (No. 4). The Catalinas and the railway companies would have to make arrangements with the concessionaires of the port works to utilize these lines.

The Inspector-General of Railways has advised the Board of Public Works to approve the improvements proposed by the manager of the Central Argentine Railway in the arrangement of the rails and platform at the Rosario Station.

The Inspector-General has advised the Board of Public Works to grant Messrs. Nicholls, Donne & Co. an extension of time for making the surveys and drawing up the plans of their concession from San Nicolas to Godoy. The proposed railway is a small one, the length being 17 miles.

We take the following from last Saturday's *Railway News*:

The receipts this week for the seven principal Argentine railways amount to £54,078, against £39,347 for the corresponding week of 1891, an increase this year of £14,731, equal to 37 per cent.

The mileage open on revenue account was 3,663 in 1391, and 4,061 in 1892, an increase of 1 per cent.

The receipts per mile per week were £10 14s. 10d. and £13 6s. 4d. respectively in 1891 and 1892, an improvement of £2 11s. 6d. per mile in the latter year equal to 24 per cent.

The aproximate value of the £ sterling was $22·40 in 1891 against $16·50 in the current year, showing an appreciation nearly 36 per cent. in the currency, compared with the corresponding week last year.

The increase in gross receipts is 14 per cent. above, while the receipts per mile for the week are 12 per cent below the improvement in currency.

The following figures show the improvement in earnings of the week for the seven railways under comparision:—

CONGRESS.

THE DEPUTIES.

Forty-six Deputies met at 3 p.m., Dr. Gilbert in the chair; and he began business by asking the House to pay to the mother and sisters of the late Deputy Centeno the salary due to him; but he had to withdraw the proposal, after a brief discussion as to its legality, as it was not included in the matters for discussion in the extra session.

The Secretary read a Message from the Executive, including Judge Pizarro's case and the commercial treaty with France in the matters for the extra session.

Deputies Almada and Obaros got leave of absence for a month with full pay.

Deputy Olmedo said Government should not have included Judge Pizarro's case in the extra session.

Deputy Garcia accused Judge Pizarro of contempt of the privileges of Congress. A debate ensued as to the arrest of Deputies Molina and Castillo in April. A motion by Deputy Bermejo, to refer the Pizarro case to a committee, was passed, Deputies Gonnet, Ayarragaray, Zorilla and Alcorta being named as such Committee.

Deputy Varela moved the adjournment of the House, and it rose at 4.15.

EDITOR'S TABLE.

The Clerk of the Weather was in a bad humour yesterday morning, and Messrs. Dust and Wind had it all their own way: but things looked better in the afternoon. The Magdalena could not be "visited" by the port doctor, the river was so rough.

We are forced, through want of space, to hold for to-morrow's issue another letter from "Putney" in answer to "Tigre Rowers."

The mails for Europe to-day close at 11 30.

Major de Barritt is visiting in the Southern camps and will be glad to arrange to send men servants of all classes from Buenos Ayres.

We knew it. President Peña received yesterday from Mr. G. W. Drabble, Chairman of the London and River Plate Bank, a warm telegram congratulating him on his advent to power.

It is as hard to find a needle in a haystack as a ticket for the Beneficencia Lottery on Thursday. All snapped up. The second Drawing will come off on 27th. Tickets for resale can be applied for at 33 Chacabuco from to-morrow, from noon to 2 p.m.

The *Nacional* published sensational news about Chile yesterday. Chilan officer caught on Argentine territory on the Bolivian frontier making strategic sketches. Our Chilian neighbours continually mistake this country for their own on the frontier. They should wear spectacles.

The Wise Men of the city sent a delegation to President Peña to salute him yesterday. The visitors and the visited expressed their mutual feelings in most mellifluous language.

There was some breezy political news from Catamarca yesterday. It appears they are sighing for National intervention up there. Has not President Peña categorically announced his intention to let the provinces fry in their own fat?

The Budget Committee no-quoed yesterday. Bad beginning. Old tune.

The Villago of the Heights had a crowd of visitors on Sunday. It is feared that Devoto may lose the eminent bacteriologist, Dr. Susini, as it appears that all his microbes and bacteria have died. Even mosquitoes cannot live there.

With reference to the water-route from the ocean to Chicago a constant reader informs us that the "American Yacht Club" has sent out a circular answering the question. "How large a vessel can pass from the ocean to Chicago? It says among other things. "Then comes the Lackine system of canals, whose present capacity will not permit the transit of vessels of more than 9 ft. draught."

Passengers by the 11 o'clock tram to Flores on Sunday night had quite an exciting trip. A man was run over near Callao and severely hurt, the tram being delayed 20 minutes in order to enable the guard and driver to give their private addresses to the police. The wonder is the police did not take all the passengers to the "Comisaria" to "prestar declaracion." The next thing was a collision with a hack, one of the horses of which was knocked under the tram. The groans of the unfortunate animal frightened the lady passengers, who abandoned their seats precipitately. Then, by way of a change, the tram got off the track and the passengers were terribly shaken, as the car was driven recklessly over the pavement until chance threw it on the rails again. Next came a delay, as the ladies who had so precipitately left the tram, were some squares behind. Finally, the passengers managed to get to destinations, not without having experienced some more excitement at the Station, where the driver tried to escape from the clutches of the police.

M. Caillaux, accompanied by M. Levy, an amateur aeronaut, was foolish enough to go up in his balloon on Sunday in spite of the high wind. The consequence was that they came down rather roughly near Moreno, and got a bad shaking. They were barely out of the balloon when it shot upwards again and has not since been heard of.

More good news for postage stamp collectors. A new and complete series of stamps in honour of Columbus will be issued by the United States Post office, on January 1st, for circulation during the year 1893 only. They will bear designs taken from incidents in Columbus's history.

A Paris paper says:—"Debrouski, who was associated with the Campel Mission in the Niger region, has just returned to France. He is a botanist: he inaugurated a new plan for marching into the bowels of the land; he took with him a supply of seeds of vegetables; these he sowed as he reached certain regions, and sold the crops to the natives in exchange for curios, help, and ivory. The Chinese army when they invade a country, and with whom time is no object, halt, sow grain crops, and make up their commissariat from the harvest; that is cropping applied to land-grabbing. Another traveller has been endeavoring to open up "the light soil of the Sahara" from South Algeria; M. Méry states, he walked bare-footed in order to prevent the terrible Touaregs from finding his tracks and so murdering him."

Another lady doctor, Miss Petrona Haly, who studied in Germany. We take off our best hat to her. There are now four ladies in the Argentine Medical Bus: Mrs. Dellepiane and Mesdlles. Grierson, Pawlowsky and Haly. Our male "medicos" will have to look out.

The Children's pantomime was repeated on Sunday in the Opera House to a crowded and fashionable house. As for the Kermesse, it was crowded all day, and the charitable promoters piled up the dollars in grand style.

Messrs. Jacobsen and Co. have now on sale the new edition of Mulhall's "Dictionary of Statistics". As the number of copies is limited, early application is advisable.

There was a slight blaze in the Kermesse in Plaza San Martin last night, but it was mastered before any damage worth speaking of was done.

The grand banquet at the Turnverein comes off to-night. We thank our correspondent "Don Fulano" for correcting us as to Emperor Frederick's death. To day is the anniversary of the truly noble monarch's birth. He died on June 15th, 1888.

"It is often asked how editors pass their leisure moments. Bless you, they don't pass them. They never catch up to them. An editor is usually from ten to forty years behind his leisure moments, and he always dies before he gets within gunshot of the rearmost of them."

Master Lencini, "aetat" 12, amused himself on Saturday in Calle Ombu by throwing stones, one of which hit a man named Montes on the head, and he died on Sunday.

The Italians went in for a final instalment of Columbus festivity on Sunday. At night, in spite of the high wind, a torch-light procession, nine squares in length, marched to Plaza San Martin, where the Lord Mayor was waiting for them and made them a flattering speech, after which his Lordship and Dr. Borraschi, President of the Fete Committee, fell on each other's necks and embraced. A facetious reporter says that the crowd was moved to tears at the sight.

The courteous manager of the Rossario Railway will run a special train from the Central station to San Martin, for the benefit of those attending the Organ Fund Concert in the Odeon Theatre. It will start at 12.15 a.m. on Thursday morning.

The *M. V. T.* says:—"Having spent three days in celebrating the Centenary, would it not now be as well to appoint a day of mourning and expiation for the failure of South America in general and of Uruguay in particular, in making use of their opportunities. We wonder how the Centenary has been celebrated in Peru, Mexico and Central America. The discovery was an unfortunate one for them, for they are in a much worse condition to-day than when they were discovered."

The distribution of prizes to the boys of the German school at the Turnverein on Sunday attracted the elite of that community. The boys marched in at 2 p.m., headed by their worthy Professor Herr Fritzsch; and the military and gymnastic exercises they went through were admirable, and won loud applause. Mr. Hermann Schleiper, President of the Club, presented the prizes to the winners; and in turn the boys presented their Professor with a flattering testimonial of their gratitude to him. A lunch wound up the agreeable proceedings of the day.

Buenos Ayres province is preparing to spend its share of the Locust Extinction cash, $100,000; and a long rigmarole Bill on the subject has been sent to the Chamber by Governor Costa. Meanwhile very little has been heard about the Locusts from any quarter for some days: and the insects are supposed to be still engaged in celebrating the Columbus Centenary.

The new Chief of Police is afraid of starting a plague from his head quarters when summer begins to boom. The cells in the Policia are made to hold 400 prisoners, but 1000 are often crammed into them. To remedy this, General Viejobueno intends to ask Government for a bit of waste ground on which to erect "galpones" to lodge drunks, disorderlies, and other backsliding citizens whose offences are not of a very heinous character.

The banquet to the Press at the Tigre Hotel on Saturday night was worthy of the occasion and the Fourth Estate. All the delicacies in and out of season were on the table, and the wines were "hors ligne." The party broke up for town at 9 p.m.

President Peña says there are quite too many porters, black and white, in the Government House, and he means to get rid of half of them. There is consequently a rather woe-begone feeling in the circles interested.

Those who were fortunate enough to secure a good lot of Columbus stamps in the scrimmage at the G. P. O. on Wednesday last are making fortunes out of them. The price in Montevideo is £1 sterling each, with an upward tendency.

The incessant ringing of the church bells during the three days' Columbus jollification at Montevideo spoiled half the fun, and many people got nervous attacks from the incessant crashing and clanging which began each day at 5 a.m. and lasted with barely an interval till 8 p.m. We had nothing so terrible here. The tramways turned in piles of money, the Paso Molino line carrying 37,500 people in the three days, and the "Este" 35,000. Country cousins from the departments swarmed in the streets and filled the hotels and lodging houses.

Our esteemed Rosario contemporary the *Argentine News* says that neither President Peña nor Columbus were treated very enthusiastically in that city on Wednesday last; "the first has been received with public silence and perhaps with fear by the local officials, the second has been allowed to pass almost unheeded, owing to the internal discord which seemed to reign amongst the festival committeemen, appointed by the town for the sole purpose of organizing festivities to worthily celebrate the anniversary."

ON 'CHANGE.
Monday, October 17th 1892.
The ebb in the gold market ceased this morning and the tide began to flow back with the bulls for a short time. As the ring opened the speculation ruled very weak and the bottom prices of last Saturday were touched, but it soon appeared that gold was scarce for cash and prices ran up very fast in the emergency. Eighteen thousand ounces changed hands; the price opened at $50.10, fell to $49.90, began to rise rapidly and closed, as the bell rang, at $50.60, say 210.90% premium. Immediately after the ring operations were carried on with vigor on the kerbstone and prices rushed to $50.80; top price had been reached and the decline began; the corner had been turned and the market resumed its downward march. The rise this morning was caused by an unexpected "shortage" and the requirements of certain high quarters. Meantime, the falling tendency of the market was not shaken, for the conviction is still strong that the current of the fall is strong as ever and will sweep everything before it; covering operations, shortages, and requirements of high quarters may give rise to periodical spurts, but the level of the gold market is falling with irresistible force.
After falling about 6% in one week the premium has suddenly risen 1% in one morning; this is a necessary and natural evolution in every falling market, especially in a rapidly falling speculation. Over-speculation on one hand and covering speculation on the other always tend to neutralize the too violent effects of a rise or fall, whether in gold, stocks, or shares. It would be a misfortune to this market if the descent of the gold premium continued with the same force as last week, very nearly 1% per diem; such a violent change would shake the market to its foundations and paralyze business, already we see an utter dead-lock in exports and a shrinkage in dealings in imports, as a fluctuating medium like that of last week makes all business thoroughly speculative, without any basis of reliable nature. Those, however, who think that the spurt in the gold premium is the signal for a gradual rise are mistaken, for the mighty current of the market is as steady as ever in the direction of a fall; all are convinced of the changed state of affairs and watch the turn in the tide with the expectation that gold will fall now as heavily as it did this time last year, although neither so suddenly nor so violently.
Last week's fall in gold has had a most disastrous effect upon produce in general. We see that not only has the wool business been stopped, owing to a collateral 10% fall in prices, but sheepskins and cowhides have gone down in an alarming fashion—weighed down by an enormous supply, owing to mortality in the herds and flocks and the appreciation of the monetary medium in which they are quoted. Prices have sunk all along the line and consignees prefer sending their produce to deposit rather than sell at prices that show such a great depreciation in the span of a short week. Cereals have also suffered, and the business that was only a few days ago gigantic with a 10 per cent. higher premium, has now sunk to insignificant proportions: in fact, business in wheat and maize to-day is next to nil. The very importers are afraid to operate, as many do not attach too much faith to the falling tendency of gold, knowing as they do, with bitter experience, that this is a market of great vicissitudes and that transitions in prices are as violent as the changes in the Platine temperature. This morning's rise has perplexed them more than ever.
Patriotic Bonds were thirty cents weaker this morning: a very small business was done: the price opened at 73.30 and closed at 73. Internal Bonds were more active than the sister stock and prices were better maintained at 67.60 for cash and 67.50 for end of the month. Catalinas were awfully dull: a sudden change has come over the speculating dream of the hopeful holders, and for the first time in many weeks there was a lull in affairs. Two hundred shares changed hands for cash at 9, very weak. Fourteen hundred were sold for the end of the month at 9.20 and 9.10. Municipal Consols were in steady demand and very firm: no stock in the market feels more the beneficial change in the Government than the municipal stock: many be that the holders are convinced that a sweeping municipal reform is imminent and that a process of selection will form aldermen on the same lines as the present Cabinet Ministers, all men who go to bed early and get up early

many parcels to deposit, trusting to the future for a better demand for what they consider a first-class article. A splendid parcel of Curumalan wool, of cross-Lincoln quality, consigned to Don Guillermo Kelsey, has been sent to deposit; the Curumalan consignment is a large one and is coming to the market in parcels which are immediately removed, as prices do not answer expectations. The first cross-Lincoln parcel from the famous Mempson estancia in Magdalena was sold in the Plaza Constitucion at $91 per 10 kilos to a well-known German export firm; other parcels of the same quality were sold in the Central Produce Market at $71 to $8 30 per 10 kilos, mainly consignments from the Northern and Western districts of the province of Buenos Ayres. Mr. Liborio Novoa sold this morning in the Plaza Constitucion a parcel of mestizo Rambouillet wool, earthy and thin, at $7 per 10 kilos; the parcel came from the Castelli station in the West. Six or seven lots of new wool will be offered for sale to-morrow at the Central Produce Market.

Sheepskins and cowhides have fallen considerably, owing to the very heavy arrivals from the rural districts and the fall in the gold premium. Cereals have fallen also, owing to the same causes; sales are few and far between and there is great dulness in the market.

Some parcels of old wool arrived to-day at the Plaza Constitucion, but they were not sold.

Mr. Charles Lix-Klett, so favourably known in commercial circles, has published two articles in our colleague *Campo y Sport*, one on Agriculture and the other on sheep and cattle farming. Our colleague praises the English system which, he says, must be eventually adopted here. We recommend both articles to estancieros, "chacareros" and sheepfarmers. Mr. Lix-Klett is now on the editorial staff of *Campo y Sport*. We congratulate our colleague on such a valuable acquisition.

Our colleague *La Nacion*, in its review for Europe, states with much truth that the Chicago Exhibition Committee has suffered an irreparable loss by the withdrawal of Mr. Carlos Lix-Klett; he was the spirit that animated the committee and imparted life to the whole exhibition machinery. Since his resignation, the propaganda has fallen off and exhibits have fallen off in an alarming manner. There are fears that failure may attend the efforts of those who are getting up the show for Chicago.

Messrs Hornsby and Sons have opened an additional show room Calle Rivadavia 1953-55.

Business at the second hour was again brisk in gold; 13,638 ounces changed hands at declining rates, opening at $50.70, falling to $50.30, and closing weak at $50.40. Absurd rumours about difficulties in the Cabinet were afloat, but it is needless to say no attention was paid to them. Stocks were quiet, all showing an upward tendency.

The following is a summary of the business effected in stocks and shares at the second ring to-day:—

The gale yesterday and last night from the South East blew the river up and at one time threatened to do some injury to shipping. The river was so rough that passengers could not land and two small craft went to the bottom. The gale reached its highest pitch at ten o'clock, but fortunately only few casualties were reported. The wind must have been severely felt in the Mount. In town a few old walls and scaffoldings were blown down. In the suburbs, especially in Villa Devoto, the gale was so strong that the residents had to barricade their doors and windows.

Messrs Eastman and Kenny, the well-known live-stock and land brokers, sold yesterday at the La Choza estancia of Messrs Brown, in Lujan, the following animals. The auction was well attended, bidding was brisk, and prices were most satisfactory. The following is the list:—

The special train that arrived in New York from San Francisco on the morning of August 9th brought $20,000,000 of gold and not $2,000,000 as stated in the cablegram. It is said to be without doubt the most valuable train that ever crossed the continent. Four baggage cars carried the gold and a sleeping car the guards. The run was made in 4 days 13 hours and 16 minutes, this being within one hour of the fastest time ever made between the two cities by a continuous train.

The traffic through the Sault Ste. Marie Canal for the year ending June 30th 1892 was enormous. 652 vessels passed trough the canal on an average 17½ times each. 595 of these vessels were owned in the U. States and 57 in Canada. The largest cargo was carried by the U. States steamer E. C. Pope and consisted of 103,000 bushels of wheat.

The lock at Sault Ste. Marie is said to pass a greater tonnage than any other canal lock in the world, the business far exceeding that of the Suez Canal. 10,107,622 tons of freight and over 25,000 passengers passed through during the (about) eight months that the canal was opened.

Parties from Montevideo inform us that estancia land in the Banda Oriental is selling to-day cheaper than 20 years ago; that people with money can buy greater bargains on the Uruguay than in B. Ayres, and that there never was a more favorable period for Euglishmen to invest in the Banda Oriental camps than at present; and strange to say not withstanding all this people are leaving Montevideo and coming up to Buenos Ayres, and those who have money are buying Pampa lands at 15 to $20,000 a league in preference to the estancia lands in the Uruguay, which are being sold off by auction every week at such cheap rates. Mr. William Cranwell, when Uruguay Consul-general in London, published a very interesting book on the Banda Oriental in the year 1883 which attracted much notice. In that book he gave a table of the working of an estancia of 10 suertes of land with 15,000 head of cattle and 20,000 sheep, in which he showed that with average good management the property gave the investor 14½ per annum on his capital; and he also gave the case of a man who had 2,400 sheep on halves, belonging to a friend in England, who in seven years received in remittances from that flock £797 sterling. Mr. Cranwell's tables are now pointed to by those interested in the subject, as evidence of what can be done by parties buying estancias in the Banda Oriental at to-day's prices, and those who take further interest in this matter would do well to read Mr. Cranwell's book.

The sugar news from Tucuman could not be more favorable; all the sugar establishments are hard at work. The "cosecha" has been splendid and will be finished this month. At San Vicente, the sugar establishment at Señor Medina, an express train with 35 waggons all filled with sugar has been despatched for B. Ayres, and from letters we have seen, we judge that this will be the greatest sugar year ever known in Tucuman.

There is a great row going on in Rosario about the mole of the Gas Company which has been rented by the company to a syndicate of foreign export merchants, and the Custom House authorities are so opposed to the business that they have applied to the Minister to cancel the concession.

The following sales of city property are reported:

House No. 867 Calle Arenales for $11,000, Sr. Deagustini buyer.

House No. 516 to 524 Calle Chile for $37,000. Sr. Velardi buyer.

The sale also of an estancia in that most distressful 'partido' Bolivar, three square leagues of land, for $140,000. Buyer Sr. Buhau. We think that considering the 'partido' in which this land is, the price is very high.

The police reports to-day show that the people still continue to keep their money in their houses rather than deposit it in the banks. Two houses have been just robbed: in one house the robbers walked off with 3,300 nats. and in the other 4,000, and in Calle San Patricio a poor man who had 540 dollars locked in a drawer, was robbed of the whole amount.

As a matter, of course, owing to the fall in gold there is a dead-lock in the wool market: both buyers and sellers are perplexed A lot of fine Rambouillet wool from Basualdo's 'estancia' is reported sold at $7.50; and about 20,000 kilos, various lots of Lincoln wool in prime condition, were sold on Saturday at an average price of 8 nats.; this morning that same wool would not fetched even 7. In the Central produce market they expect several lots of new wool in this week and shearing is going on very fast all over the country. Strange to say, shearers are by no means so scarce this year as last, and the wool will come in quicker to market. A stern wheel steamer is being put on the Rio Negro and will soon run up to Pueblo Roca where the wools for the last two years are still in stock.

The returns of the Custom House to-day amounted to

Difference in favour 1891.	146,704	

It is perfectly astonishing how fast property is selling in and about town at the various auctions and also out in the camp; every Sunday and holiday the auctioneers are up to their eyes in business. The purchasers being for the most part Italians, who instead of depositing their earnings as in former years in Savings Banks, now buy building sites and cheap little houses in every direction. The following sales were effected on Sunday; and although the amounts paid for these properties are small, still they give the market value of a square vara of land in the outlying streets, which is always important:—

Auctioneer Messrs Luis Godoy and Company sold yesterday by auction the following properties:—

House Calle Zeballos No. 1472 for $13.500; buyer, Manuel S Cansela.

House calle Pavon 589 for 14,000, do to same.

14 lots of ground in 2da Serrano and Parana at $3 to 3.25 per sq. vara; buyers, Italians.

2 lots in Ministro Ingles, between Paraguay and Gral. Mansilla, at 4.80 to 5.70 per sq vara; buyers, Messrs José Bordes and Ezequiel de la Serna

A small house in Azcuenaga, no. 1150, for 11,200; buyer, Emilio Soulez.

11 lots of ground in 2da Paraguay and 2da Thames at 2.50 per sq. vara; several buyers.

Property Calle Gral. Mansilla, between 1a and 2da Seraano at 3 per sq. vara do Antonio Ferrari.

A small house in Calle Paraguay, between Thames and 2da Thames, for 4,200, do J. Siogi.

Various lots of ground in Calle Bulnes, between 1a and 2da Viamonte, at $4 per sq. vara; several buyers.

A small house Calle Maza, between Constitucion and Pavon, for 3,100, do Agustin Masé

Property Velez Sarfield 192 for 12,000, do Ignacio Brai.

A small house Calle Liniers, between Venezuela and Belgrano for 4,800, do Joaquin Saoni.

A small house Calle Garay, between 24 de Noviembre and Soria, for 2,920, do Mrs Concepcion Racci.

2 lots of ground 2da Garay, between Matheu and Alberti, at 4 per sq. vara, do A Bellovin.

A small house Calle Soria, between Constitucion and Pavon, for 2,600, do Angel Joare.

5 lots of ground in Calles Santa Magdalena and street without name at 1.20 per sq. vara; Italians buyers.

A small house 2da Venezuela, between 24 de Noviembre and Soria, for 4,400, do Pedro Enaut.

2 Various lots of ground in Calle Independencia, between 1a and 2da Castro Barros, at 3.50 per sq. vara; several buyers.

Auctioneer Mr. Risso Patron sold yesterday at auction the following properties:—

Corner of Calles 2da Castro Barros and 2da Venezuela, 287 sq yards, for 81⅔%.

2 lots Calle 2da Castro Barros, between 2da Venezuela and another street, at 880%.

5 lots Calle Serrano, between Corrientes and 2da Cuyo, at 1.80, 1.85, 1.95, and 2 per sq. vara.

1 fraction Calle Cuyo, between Serrano and Thames at 1.60 per sq. vara.

4 lots Boulevard Boedo, between 2da Sin Nombre at 1, 1.95, and 1.20 per sq. vara.

2 fractions Calle Sin Nombre, between Boedo and another street at 0.80 per sq. vara.

8 lots Calle Sin Nombre, between 2da do, at 0 50 per sq. vara.

Auctioneer Mr. S. Lobato sold yesterday the following:

Property Gallo 1626 for $4,400; buyer, Lacossi Michele.

2 lots of ground in Calle Gallo, between Paraguay and Mansilla, do Carlos Anoyot.

One small corner lot, Gauna and Bulnes, do Emilio Beloni.

3 lots of ground, Calle Independencia, at $6 per sq. vara.

It speaks for the great change which has suddenly taken place in many of the departments of public affairs to find the clerks in their offices at an unusually early hour. People on the Bolsa could hardly believe that the Presupuesto committee of Congress meets every morning now at 9 a.m. which evidently shows that the members are intent on business. Now that the summer is coming on and the very hot weather soon upon us, and with the new Government in office, it would be well to make a new departure and change business, banking and Bolsa hours, to suit them to the season. The Bolsa and Banks should open at 7 a.m. and close at 10 a.m. and open again in the afternoon at 4 p.m. and close at 7 p.m. This would give business men and clerks a few hours necessary rest during the great heat of the day and prolong their lives. We hope that Don Rufino Varela, the chairman of the Presupuesto committee, who has set the good example of early hours, will help us in the matter.

Rumour has it that Mr. Barrow, the popular Manager of the Great Southern Railway, leaves next week for London on important business connected with this vast enterprise. We wish Mr. Barrow every success in the negotiations whatever be their nature and condition, predicting already the best results therefrom, if this able gentleman's career may be taken as a fair standpoint from which to form our u judgment.

The new galpon at Calle Caseros is fast approaching completion, having been run up as if by magic. It measures 200 by 40 yards with capacity for over 1000 waggon loads of produce. Mr. Thomas Gregory, Assistant Traffic Manager, was all Sunday morning at work concluding the arrangements for the transfer of all the skins and hides from Sola cars to the new shed, and last night was passed in the heavy operation; 400 waggons being thus freed so as to meet the requirements of the busy season.

Messrs Varangot and Salvadores, auctioneers, sold yesterday by judicial order, the "finca" 2,838 Calle Belgrano, for $5,950. The upset price was only $3,279.

Christophersen and Company have chartered the County Derry to load at Rosario 2,500 tons of wheat for Rio.

CARLOS ABBEE HOLT,
Manager."

Thank you Mr. «Standard» as you say «There need be no apprehension» of course it is understood if a man has a policy in La Portefia, which has paid more claims in the same time than ANY other Company and which has now had the ball opened for the Hail Storms of this season.

767 CUYO 767—We don't recommend our readers to read the aviso of Messrs. A W Boote and Co., 767 Cuyo, but certainly their photo views are worth seeing, and thrown away at the price at which they sell them. London Argentine Gauchos are in the shade alongside some photos we have seen of the real thing. Mr. Boote is the sole photographer in town who devotes such great attention to the charming scenery and in creating customs of this vast Republic. "Our unhappy relatives at home who only know this country from a Bond, Cedulas, or Moratorium point of view cannot be sent too many of Messrs, Boote's splendid photographs, as "recuerdos" which will solace their pecuniary anguish by the contemplation of the fine country their relations have adopted as a home." THREE GOOD REASONS

Why Sheepmen everywhere should use
Alexander Robertson's
HIGHLAND SHEEP DIP.

Best Summer Protection for Sheep.
Cures Scab.
Exterminates Vermin.

First.—It is an honest preparation. I publish the formula of its composition openly. I make no attempt to trade on the credulity of my patrons, who, with the formula before them, can form a shrewd opinion of the efficiency of the "Dip" and its value in Cash. I range myself alongside the Farmer, and make his interests my own.

Second.—It is a reliable sheep dip. That it Kills Vermin goes without saying—any Sheep Dip worthy the name will do that; but the Highland Sheep Dip does more,—it has a continuous destructive effect on all insects hatched after Dipping, and largely prevents future contagion from infested sheep. The strongly adhesive nature of the Rosin and Grease, which are the most powerful Waterproofing materials possible to introduce into a sheep Dip, "fix" the Dip in the fleece, forming, when dry, a film capable of resisting moisture, on every individual fibre of the fleece, so that when the fleece has been soaked by rain the sheep easily frees itself from all superabundant moisture by a simple shake.

Third.—It is the most economical Dip. For $1.75 gold Makers of Powder Dips give about 10 lbs. of Powder. This quantity of Yellow Powder Sheep Dip contains 2 lb Arsenic, 2 lb. Soda, 6 lb. Sulphur. These Dips kill vermin certainly; but their use is disastrous to the farmer—the harsh, dry feel of the sheep's fleece shortly after being bathed in these Alkaline Dips arises from the fact that the wool has been Robbed of its Natural Grease, which the Soda has converted into Soap, which, in turn, is washed out by rain. The farmer suffers a corresponding loss in the weight of the Wool, and the Sheep, robbed of Nature's protection, is left defenceless against cold and rain.

Soluble Fluid Dips—whose name is legion, though their nature is one—have an average cost of $1.30 gold per gallon, and consist of tar Acid Oil (2½ o/o), 6 lbs. Soap, Soda and Water to 100 lbs. These Dips have to be used at nearly double strength to kill vermin, even then they have no effect on the eggs; and, indeed, from the volatile nature of Tar Acids their effect can never be anything but temporary, no matter what strength they are used. The one thing in their favour is their free solubility in cold water, which is but a poor return for the need of greater frequency of Dipping, or the other alternative of flocks suffering from the effects of a temporary Dip.

The highland Sheep Dip contains in each 15 lbs. (1½ gallon), costing 1.75 gold 2 lbs. Arsenic, 6½ lbs. Tar Acid Oil (2½ o/o), 2 lbs. Carbolic Acid (95 o/o) 4½ lbs. Rosin, Grease, etc., i.e., all the Arsenic in 10 lbs. Powder Dip, and all the Tar Acids in 2 gallons Fluid Dip, these insecticides being combined with materials of unrivalled Waterproofing Power.

No other Sheep Dip Maker in the world has ever put an equally serviceable preparation in the hands of Sheep Farmers, or has given an equal value in material for the price charged.

A LOS HACENDADOS Y á nuestra clientela

Animados por el favor y la confianza que los hacendados y el publico en general dispensa a esta casa, obligandole mas vasta esfera de accion y deseando corresponder a sus exigencias, nos es grato comunicarle que desde la fecha hemos incorporado a nuestra casa de remates y comisiones las consignaciones de frutos del pais y cereales los que recibiremos a comision para vender en los mercados Central de Frutos, Constitucion y Once en las mismas condiciones que los demas consignatarios.

Semanalmente remitiremos a nuestros comitentes una revista de precios corrientes con fieles apreciaciones sobre el estado de la plaza.

Cuando los criadores o nuestros clientes lo pidan venderemos sus frutos en remate previo anuncio, lo que ofrecera la indiscutible ventaja de dar nombre y fama a los establecimientos productores, cuyos frutos con rarisimas excepciones se venden actualmente sin saberse en nuestra plaza y menos en Europa el establecimiento que los ha producido.

La venta en remate ofrece por otra parte en nuestro mercado mayores facilidades que en los del Havre, Londres y Amberes, porque aqui los compradores pueden apreciar mejor todo lo que compran, examinando el articulo sin enfardelar.

La distancia a que se encuentran nuestros mercados uno del otro y la circunstancia de hacerse los negocios simultaneamente en los tres, tiene el inconveniente de distribuir los compradores alejando la competencia, y el remate subsana esta dificultad, porque como se anuncia previamente, permite a los interesados congregarse a una hora fija en el mercado donde ha de efectuarse la venta, estimulando el exito de las operaciones la competencia de los licitadores.

Para vender frutos en remate, sera necesario que asi se nos ordene expresamente, de lo contrario venderemos a estilo de plaza.

Esperando merecer en este ramo la misma confianza que en las otras comisiones, nos es grato repetirnos sus atts. y S. S

Nota importante

Recomendamos a los criadores la inspeccion de este soberbia lote de animales, comprados por su dueño directamente en Trakehnen, eligiendo los mejores tipos y la mejor sangre. Los pedigrees que estan a disposicion de los interesados demuestran que se ha elejido descendientes de los animales mas famosos. Esos animales se encuentra registrados en el Stut Buch oficial de Prusia, año 1885 y 1886. Como es sabido el Haras Real refresca la sangre Trakehnen en epocas determinadas con los padrillos mas afamados de carrera ingleses arabes. De ahi que entre los antepasados de los animales que hoy se ofrecen en venta se encuentren los caballos que mas triunfos han conquistado en el turf ingles

Los dos padrillos son esplendidos, y si bien todas las yeguas son inmejorables recomendamos a los conocedores la Meta y la Fulle por creer que son los animales mas perfectos que en
